

CLIENT CLOSING KIT

Upsell product for turning replies into paid website projects

Position this as the next step after the core toolkit: “You got replies. Now close the project with confidence.”

What Buyers Get

- Discovery call framework
- Pricing and packaging worksheet
- Proposal template
- Objection replies
- Simple project agreement outline
- Monthly care plan pitch

Discovery Call Framework

1. Confirm the business goal.
2. Identify the website problem.
3. Quantify the value of one new customer.
4. Recommend one simple package.
5. Ask for the close.

Pricing Packages

Package	Price	Includes
Homepage Refresh	\$500-\$800	Hero section, services, contact flow, mobile polish
Full Redesign	\$900-\$1,500	Homepage, service sections, about area, CTA structure, mobile layout
Website + Care	\$1,200 setup + \$200/mo	Redesign plus monthly edits and optimization

Proposal Template

Hi [Name], based on our conversation, I recommend a [package name] focused on making your website clearer, more trustworthy, and easier for customers to contact you.

- Goal: [business goal]
- Scope: [deliverables]

- Timeline: [date range]
- Investment: [\$ amount]
- Next step: reply “approved” and I will send the kickoff details.

Objection Replies

“It is too expensive.”

Totally understand. The reason I recommend this package is that one or two new customers can often cover the investment. If needed, we can start with the homepage first.

“I need to think about it.”

Of course. What part are you still unsure about: the price, the timeline, or whether the website will help?

“I already have someone.”

That makes sense. If you ever need a second set of eyes or a focused mobile redesign, I can help with that specific piece.

Simple Agreement Outline

- Project scope
- Timeline
- Payment terms
- Revision limit
- Client responsibilities
- Ownership after final payment

Monthly Care Plan Pitch

After launch, I can handle monthly updates and small improvements for \$200/month so your site does not get outdated again.
