Everything needed to publish the product and start selling

Core Product Sales Page

Title

Land Your First Website Project in 7 Days

Subtitle

A simple execution system for builders who can make websites but have not turned the skill into money yet.

Description

If you can build websites but have not made money with that skill yet, this toolkit gives you the exact offer, outreach scripts, pricing, and 7-day plan to start conversations with local businesses and close your first simple project.

What You Get

- 3 website service offers
- Copy-and-paste outreach scripts
- No-portfolio demo method
- Pricing scripts
- Discovery call questions
- 7-day action checklist

Price

Start at \$19. Raise to \$29 after the first 10 sales. Bundle with the Client Closing Kit for \$79-\$99.

CTA

Stop learning in circles. Start sending offers today.

Upsell Sales Page

Title: Close Your First Website Project With Confidence

Description: The Client Closing Kit gives you the call script, proposal template, objection replies, and pricing structure you need once prospects start responding.

Price: \$49-\$79 standalone or \$79-\$99 bundled with the core toolkit.

Bonus Offer

Bonus: 50 Local Business Outreach Tracker. Include the spreadsheet as a launch bonus for the first 25 buyers.

Gumroad Setup Checklist

- Upload the core toolkit PDF.
- Add the bonus tracker as a ZIP or separate file.
- Set price at \$19.
- Add the upsell product at checkout if supported, or link it in the delivery email.
- Use the description above.
- Add refund line: Due to the digital nature of this product, all sales are final unless there is a duplicate purchase or file access issue.

Launch Post

I made the exact system I wish I had when I knew how to build websites but had no idea how to get paid. It includes the offer, scripts, pricing, and 7-day plan. Link in bio.

10 Short Video Scripts

Video 1: Most beginner devs stay broke for one reason.

Structure: Hook → one useful tip → show a script or example → CTA: “I put the full system in the link in bio.”

Video 2: If I had to make \$500 this week with web design, I would do this.

Structure: Hook → one useful tip → show a script or example → CTA: “I put the full system in the link in bio.”

Video 3: You do not need a portfolio to get your first website project.

Structure: Hook → one useful tip → show a script or example → CTA: “I put the full system in the link in bio.”

Video 4: Here is why nobody replies to your outreach.

Structure: Hook → one useful tip → show a script or example → CTA: “I put the full system in the link in bio.”

Video 5: Stop selling websites. Sell more calls and trust.

Structure: Hook → one useful tip → show a script or example → CTA: “I put the full system in the link in bio.”

Video 6: A local business with a bad website is not a problem. It is an opportunity.

Structure: Hook → one useful tip → show a script or example → CTA: “I put the full system in the link in bio.”

Video 7: Your first website project does not need to be fancy.

Structure: Hook → one useful tip → show a script or example → CTA: “I put the full system in the link in bio.”

Video 8: This is the message I would send to 20 businesses today.

Structure: Hook → one useful tip → show a script or example → CTA: “I put the full system in the link in bio.”

Video 9: The fastest portfolio hack for beginner web designers.

Structure: Hook → one useful tip → show a script or example → CTA: “I put the full system in the link in bio.”

Video 10: Do this for 7 days before you build another app.

Structure: Hook → one useful tip → show a script or example → CTA: “I put the full system in the link in bio.”
